

EVIAN SPA BY THREE ANNOUNCES EXCLUSIVE PARTNERSHIP WITH LUXURY FRENCH SKINCARE BRAND, CLARINS

Hong Kong , October 19th, 2006 ----- Evian Spa by Three has come to an exclusive agreement with leading French beauty brand, Clarins, as the very first partner spa in China - and only the second in Asia - to use the Clarins brand.

Clarins facial and body treatments, using specialized professional products and the acclaimed Clarins method application techniques, will be offered exclusively in Shanghai at the prestigious retreat inside Three on the Bund on the historic Bund.

Clarins treatments are unique due to their complex range of over 80 specialized massage techniques that are utilized by Evian Spa by Three's experienced therapists to stimulate the lymphatic system and blood circulation in order to maintain the integrity and health of the skin and restore the natural balance of mind and body.

Evian Spa's therapists, who have received intensive training from Clarins professionals, give each guest a specialised consultation before being treated according to their specific skin types and concerns.

Both Clarins and Evian Spa by Three have personalised and effective treatments using natural ingredients and superior techniques at the core of their philosophy.

Restoring balance has long been the central tenant of Evian Spa by Three, world-renowned for its serene interior, including the awe-inspiring Zen-garden and Atrium awaiting guests on arrival. Therapists are trained in both Western and Asian techniques for body and facial treatment, as well as beauty, hand & nail and hydro- and colour- therapy. The water theme carries throughout the experience with a free flow of Evian water to cleanse and purify the skin from the inside out.
