

## **BodyNew's Cellulite Boot Camp**

Scottsdale, AZ - Sept 28, 2007 Time to win the war against cellulite once and for all! The month of October kicks off the launch of BodyNew MedSpa's Cellulite Boot Camp program; an intensive 8 week program consisting of non-invasive spa treatments and at home regime including the revolutionary Accent XL combined with VelaShape treatments- the only FDA approved technology for cellulite! The program is designed to aggressively combat the appearance of cellulite, tighten and tone skin, and reshape the abdomen, thighs or buttock without down time or surgery.

Over 80% of women have cellulite; it strikes gym- goers and couch potatoes alike. While it does not represent a health threat, it is shall we say "aesthetically unappealing". Despite its prevalence, and repeated attempts to find an effective treatment, no solution has adequately countered cellulite - until now! The Boot Camp program combines advanced radio frequency technology and at home diet and exercise guidelines that will change the shape of fat cells, and shrink and remodel the connective tissue that forms this unsightly condition.

Boot Camp includes:

- Series of (4) Accent XL Treatments
- Series of (4) VelaShape Treatments
- Hyperbaric Oxygen Treatment (1)
- Body Wrap or Massage (1)
- Bodyview Analysis
- Homecare Kit- Including cellulite cream, diet and exercise guide

Leigh Girodano - MedSpa Director at BodyNew MedSpa

Leigh Giordano, RN, BSN, MA, MedSpa Director and contributor to the design of the program states "Our goal is to restore our patients' confidence. We've created a program that is very intense but will prove to achieve amazing, life changing results that are well worth it! All one needs is a strong commitment". The program requires weekly visits to the MedSpa during the entire 8 week time frame. For optimal results, BodyNew's at home nutrition and exercise program is also strongly encouraged. The package is specially priced through December 2007 at \$3995 (a \$5995 value).

Participants can expect to see continual signs of improvement in visible cellulite reduction and lose inches for up to 6 months after Boot Camp is completed.

It's finally time to combat cellulite for good and BodyNew has the weapons to do so! To learn more about BodyNew MedSpa's Cellulite Boot Camp program or to set up your complimentary consultation please call 602. BODYNEW (602.263.9639) or visit [www.bodynew.com](http://www.bodynew.com).
